

Education

MSc. Statistics

YORK UNIVERSITY

Aug 2020. GPA 4.0

Toronto, Canada

B. Eng. Industrial Engineering

RYERSON UNIVERSITY

Apr 2011. GPA 3.2

Toronto, Canada

Technical Skills

Programming Proficiencies

- R (advanced), Python (intermediate)
- SQL (basic), Git (basic)

Statistical and Machine Learning Proficiencies

- Proficient in statistical modeling and hypothesis testing, including time series analysis, Bayesian analysis, mixed models and generalized linear models.
- Proficient in contemporary machine learning algorithms, including XGBoost (advanced), deep learning (intermediate), support vector machines (basic), natural language processing (basic).
- Familiar with resampling methods, experimental design and missing data imputation methods.

Experience

St. Michael's Hospital

DATA SCIENTIST/QUALITY IMPROVEMENT SPECIALIST

Nov 2015 - Oct 2019

Toronto, Canada

- Analyzed large data sets to identify improvement opportunities and then lead the resulting improvement work.
- Modeled length of stay of mental health population using cluster analysis, generalized linear models, time series analysis and propensity score matching.
- Developed predictive model for hospital admission length of stay using free-text doctor notes (using NLP/Topic Modeling, Support Vector Machines & Deep Learning).

Community Care Access Centre

QUALITY IMPROVEMENT SPECIALIST (CONTRACT)

Feb 2015 - Oct 2015

Toronto, Canada

- Provided coaching and project management to 10+ working groups to execute improvement projects.

Fiix Software

PROCESS IMPROVEMENT LEAD/IMPLEMENTATION CONSULTANT

Jun 2011 - Jan 2015

Toronto, Canada

- Executed on-site consulting services for software implementation and training.
- Lead efforts to streamline technical support & accounts receivable processes.

Personal Projects

- Contributor to an **R Shiny App** that streamlines Time Series Analysis workflow.
- Developed outlier detection model for length of stay of diabetic patients in large, multi-site hospital using ensemble model approach.
- Used simulation to explore distinction between PSIS-LOO vs WAIC in Bayesian analysis using Rstanarm.
- Contributor to **LKS-CHART Advanced Healthcare Analytics Blog**.
